TEACH NYS

ABOUT TEACH NYS

TEACH NYS is an initiative dedicated to assisting all of New York's families with children in all of New York's schools. The tremendous impact of the TEACH NYS coalition became clear as the push to enact a real Education Tax Credit took center stage in the debate on this year's New York State budget.

TEACH NYS works to ensure that students, parents, administrators and teachers of all schools, including independent and religious schools, have resources sufficient to meet the day-to-day reality of securing the fullest educational opportunities possible. This effort, which was formed by established leading lay individuals from various faith communities, the business sector and other walks of life, will continue to educate, organize and mobilize New York families to help shape legislation and education policy.

Schools - public and private - are the focal points of our neighborhoods and the largest employers in some parts of the state. For the benefit of society and our economy, all teachers, administrators, parents and students need as much support as they can get. New York families want only to maximize the educational opportunities available to their children. TEACH NYS has been formed to help these families meet the education needs of their children.

For more information, contact TEACH NYS at
718-859-4245 or email info@teachnys.org

TEACH NYS

Cordially invites you to a cocktail reception honoring

Governor George E. Pataki

Assemblyman Vito J. Lopez

&

Senator Martin J. Golden

Wednesday, June 7, 2006
